

addictive game

Pivoty is the debut game of polish studio **Red Band Games**. Your task is simple: **hit all the figures on the screen**. However, there is one thing... you are **lacking a crosshair!** D: To **shoot**, tap the screen, and the shot will hit the area marked by the **moving triangles** (indicators). **Pivoty** is not yet another clone, it is an original idea. Test your patience in over **200 levels**. Achieve **the best** score worldwide in over **40 timed levels**. Compete with your friends, share your results on social media and earn all of the **127 achievements**. Will you manage to reach at least 100th level? You are only limited by your **patience...**

you will get **addicted** anyway.

Pivoty enforces maximum concentration, but also grants incredible satisfaction.

Set the colour theme of your game to your liking.

Didn't hit the target? No worries!

Use **UNDO** to turn back time! :D

200 levels? There is more! There are over **10 secret levels!** All you need to do is guess the right password...

Over **120** achievements? If not **you**, then who will manage?!

We provided you with over **50 leaderboards** as means of competition.

Compare your **stats** with friends, parents and even your cat!

Show your friends on social media that you are better, even **the best in the world!**

Have fun
